Series Narrative
Employees in this series perform and/or supervise work requiring skill in the trade of electrician.

DESCRIPTIONS OF LEVELS OF WORK

Level I: Electrician 1262
Employees in this class perform work requiring skill in the trade of electrician.

An Electrician typically:

1. installs and maintains electrical systems that operate on alternating or direct current circuits, generators, transformers, and appliances through panels, switches, meters, and circuit breakers;

2. repairs motors and other electrical/electronic controls;

3. repairs and maintains electrical switchboards, panels, street lights, household appliances, air conditioners, furnaces, public address systems, and other apparatus utilizing electricity or its effects;

4. installs, repairs, and maintains electrical, electronic, and direct digital control systems, fire and security alarm systems, and associated electrical, electronic, and fiber optic equipment;

5. performs record keeping for systems installed or maintained;

6. operates equipment used for electrical construction work, maintenance work, or electrical repair work;

7. may act as lead worker to other electricians, laborers, and others as assigned;

8. performs other related duties as assigned.
**Level II: Electrician Sub-Foreman**

Employees in this class assist in and are responsible for the work of Electricians and other assigned personnel.

An Electrician Sub-Foreman typically:

1. performs all duties peculiar to and normally required in the lower level of the electrician series following recognized procedures and techniques for such work;

2. assists in the assignment and direction of work, verifies and approves material requisitions of employees being supervised, approves time cards, etc;

3. acts for the foreman during absences;

4. performs other related duties as assigned.

**Level III: Electrician Foreman**

Employees at this level supervise and are immediately responsible for the work of Electricians and other assigned personnel.

An Electrician Foreman typically:

1. performs all duties peculiar to and normally required in the lower levels of the electrician series, following recognized procedures and techniques for such work;

2. supervises and trains staff,
   a. establishing work priorities
   b. scheduling and assigning work and verifying/approving material requisitioned
   c. planning and conducting training programs for assigned employees or staff
   d. evaluating employee’s performance; counseling or assisting employees
   e. advising on selection and termination of employees;

3. acts as custodian of tools, equipment, and material used on the job;

4. performs other related duties as assigned.
