Series Narrative
Employees in this series are responsible for the provision of physical therapy services within his or her individual scope of clinical competence as well as upholding professional standards and promoting quality in practice. At the higher levels of the series, they supervise or coordinate physical therapy programs, teach in the clinical and academic setting, participate in scholarly activities including funded research, and are responsible for administrative tasks related to departmental functioning.

DESCRIPTIONS OF LEVELS OF WORK

Level I: Physical Therapist

Employees at this level are responsible for the provision of physical therapy services within his or her individual scope of clinical competence including: examination, evaluation, diagnosis, prognosis, development and implementation of a plan of care that includes direct intervention, communication, collaboration and patient education and the evaluation of outcomes. They work under general supervision from an assigned supervisor.

A Physical Therapist typically –

1. examines, evaluates, and tests individuals who may have mechanical, physiological, or developmental impairments, functional limitations, disabilities, or other health and movement-related conditions

2. classifies patients’ disorders

3. determines rehabilitation prognosis and plan of therapeutic intervention

4. assesses the on-going effects of the therapeutic interventions

5. alleviates impairments, functional limitations, or disabilities by designing, implementing, and modifying therapeutic interventions such as therapeutic exercises, mobility activities, balance exercises, modalities, and spinal and joint mobilization

6. instructs patients in therapeutic exercise, ambulation—including the use of ambulatory aids, and in the application of prosthetic or orthotic devices

7. adapts equipment enabling patients to participate in treatment or to maintain a level of achievement

8. maintains patients’ treatment records according to departmental standards

9. gives instruction to and oversees non-professional personnel as assigned
10. gives instruction to and oversees students in the clinical fieldwork

11. performs administrative tasks related to the patient care services they provide, and required for regulatory compliance

12. interprets the referrals from physicians, advanced practical nurse, physician’s assistant, etc.

13. works with other healthcare professionals to provide the best and most congruent care to patients

14. assists with administrative duties of section or unit as needed

15. participates in clinical and academic teaching within discipline and in other programs

16. participates in departmental continuous quality improvement (CQI) projects

17. performs related duties as assigned

**Level II: Physical Therapy Specialist**

In addition to the duties of a Physical Therapist, employees at this level coordinate the delivery of Physical Therapy services provided in the section they are assigned. After a designated amount of time determined by the assigned supervisor, employees at this level should identify a clinical specialty in the section to which they are permanently assigned. They provide advanced knowledge in a clinical specialty area (e.g., wound care, neurologics, pediatrics, geriatrics, orthodontics, etc.).

A Physical Therapy Specialist typically –

1. plans and schedules assignments of student physical therapists through various clinics; counsels students; makes evaluation reports on their progress

2. assists in organizing and directing in-service training programs for staff and student physical therapists

3. is responsible for maintaining supplies and equipment, as required

4. provides advanced knowledge in a clinical specialty area

5. recommends supply/equipment purchases, space requirements, supplies, and need for additional personnel

6. recommends procedures and policy changes

7. participates in departmental CQI projects

8. teaches and/or performs clinical research in area of specialty

9. performs duties at the lower level of this series

10. performs related duties as assigned
Level III: Coordinator of Physical Therapy Services  

In addition to the duties of a Physical Therapist and Physical Therapy Specialist, employees at this level assist in coordinating the delivery of physical therapy services provided by the university’s Physical Therapy Department.

A Coordinator of Physical Therapy Services typically –

1. develops, implements, and administers programs of physical therapy at a section level
2. organizes and directs in-service training programs for staff and student physical therapists
3. reviews evaluation reports of clinic assignments of student physical therapists; counsels students and evaluates their progress
4. is responsible for overall effectiveness of physical therapy treatment programs and maintenance of up-to-date, evidence based, clinical practices; recommends changes in departmental policies and operational procedures
5. is responsible for the supervision and evaluation of lower level Physical Therapists and non-professional staff
6. recruits, interviews, and orients new employees to department
7. coordinates CQI projects, including the interpretation of results and provides recommendations on departmental changes based on results
8. performs duties at the lower levels of this series
9. performs related duties as assigned
