Series Narrative

Employees in this series provide specialized support and assistance to faculty and/or administrators of medical education programs (residency, clerkships, fellowships). At the lower level they provide the clerical and coordination support functions of the program and at the upper level serve as the assistant to the medical education program director and coordinate and/or provide the support functions necessary for the efficient operation of the program(s).

DESCRIPTIONS OF LEVELS OF WORK

Level I: Medical Education Program Specialist

4769

Employees at this level assist in the coordination of a medical education program providing support to the program director and/or Medical Education Program Coordinator. They perform duties following established guidelines for the program(s).

A Medical Education Program Specialist typically—

1. serves as a contact for residents/students/fellows concerning medical education program requirements and guidelines, financial assistance, work opportunities, absence and vacation scheduling
2. organizes medical education activities and prepares, develops, and/or maintains schedules
3. determines eligibility of applicants for programs using established guidelines; refers eligible applicants to faculty for interview determination; establishes interview itineraries for selected candidates; and establishes official record of application materials, ranking information, evaluations, etc.
4. establishes formal record for varied categories of medical education program participants, with responsibility for accuracy and completeness of record in accordance with accreditation standards
5. schedules preceptorships, subspecialties, and educational blocks based on participant interest and faculty/clinical associate availability, with responsibility for recommending alternatives
6. compiles, organizes, and prepares examination materials as directed by clinical faculty
7. coordinates and may assist in conducting portions of an orientation for medical education program participants
8. assist in the monitoring of expenditures for program participants
9. ensures completion of employment contracts for compensated medical education programs and may explain contract terms to participants

10. performs related duties as assigned

Level II: Medical Education Program Coordinator

4770

Employees at this level serve as the primary assistant to a medical education program director in the planning, development, coordination, and implementation of a program(s). They assist in the efficient administration of the program's day-to-day operations as well as assisting in long-range planning for program growth and academic requirement revisions.

A Medical Education Program Coordinator typically—

1. conducts the non-clinical segment of the formal orientation for medical education program participants with responsibility for content of orientation materials
2. reviews Accreditation Council of Graduate Medical Education (ACGME) general and academic requirements and alerts and assists the Program Director in developing and implementing changes to the medical education program as required
3. prepares medical education program information and determines non-medical content of such materials
4. prepares documents requiring compilation of information from multiple units/sources (such as accreditation documents)
5. participates in ranking meetings and provides input to faculty regarding program applicants
6. assists in the development of program eligibility criteria and screening of applicants and referral to interviewers
7. conducts interviews of applicants when appropriate
8. coordinates the evaluation process for program participants
9. supervise designated departmental staff
10. prepares and/or supervises the preparation and maintenance of a rotation master schedule that incorporates multiple specialty medical units
11. serves on committees both internal and external to the university that involve the educational program(s) and represents the department at meetings external to the university
12. performs duties delineated at Level I as required
13. performs related duties as assigned
