Series Narrative

Library personnel in this series perform duties in various functional areas of a library. Employees in positions allocated to this series have the responsibility to implement, maintain, and execute library practices and procedures, in fulfillment of the library's policies and mission of providing service to our diverse communities of users.

As part of their contacts with library users, employees are expected to demonstrate a knowledge of library services available, as well as an interest in facilitating users' requests. A progression of responsibility is evident within the series, ranging from simple, repetitive verification duties performed under direct supervision to coordinating, maintaining, and ultimately managing various library functions under administrative direction. In conjunction with this progression, it is expected that employees attend pertinent training events, workshops, and meetings in order to maintain and enhance knowledge and skills. As employees move through the series, they may be directly responsible for interpreting and applying library science principles, developing a knowledge of an academic subject or technical field, responding to problem referrals from other library staff, making independent decisions and judgments in various processing functions, providing reference services, and providing direct assistance to professional librarians. They may also be required to use electronic information systems in performing their duties. At the beginning levels employees are often engaged in the production of documents and other duties that support the functional activities and staff of the library. At the advanced levels, however, functional duties may be characterized by the nature and extent of personal contacts and may be performed in direct support of a designated administrator.

Types of functional duties include direct and indirect user services functions as well as administrative functions. Representative of direct and indirect user services functions are ordering and receiving, organizing of information, data processing, physical processing, information creation or duplication, query response and finding, instruction, circulation, interlibrary loan, reserve, collection management, archival, conservation, preservation, and general clerical functions. Representative of administrative functions are operational oversight, budgetary, and personnel/supervisory functions. Further specificity of particular job duties are addressed in greater detail in the individual institutional position descriptions.

DESCRIPTIONS OF LEVELS OF WORK

Level I: Library I**0000**

Under direct supervision, employees at this level perform various functional duties that require general knowledge of library methods and procedures. Employees receive training in pertinent library processes, procedures, and tools.

A Library I typically:

1. assists with ordering and receiving materials (including gifts).
2. performs basic data processing (including various materials processing with data entry).
3. performs physical processing (including basic repairs).
4. creates and/or duplicates information (including print, non-print, and electronic formats).
5. assists with query response and finding activities (including staffing public service desks; searching and retrieval of bibliographic information).
6. performs circulation activities (including check out, processing overdue notices, collect fines and fees).
7. performs interlibrary loan activities (including document delivery activities).
8. performs collection management activities (including shelving and organizing various collections).
9. assists with preservation activities (including assisting with or monitoring library security).
10. performs general clerical activities (including general office duties and office support services as needed: operating equipment, gathering and providing information, processing orders and forms, maintaining documents, files and records, documenting the use and distribution of library materials).
11. participates in training of peers and student workers.
12. performs other related duties as assigned.

Level II: Library II**0000**

Under general supervision, employees at this level perform functional duties that require the exercise of judgment in the application of guidelines to specific library operations and services (such as the resolution of conflicting information or interpretation of library policies). Employees receive training in pertinent library processes, procedures, and tools.

A Library II typically:

1. assists with organizing of information (including verifying and/or editing bibliographic information such as name, subject, and series authorities; maintaining catalog statistics)

2. performs data processing activities (including database searching; responsibility for quality control and verification of database information; maintaining related files and records)
3. performs interlibrary loan requests (including verifying requests using on-line database and print resources; receiving and processing basic requests requiring the use of complex information retrieval and multi-language databases)
4. assists with reserve activities (including scanning documents; creating paper and electronic reserve records and linking them to appropriate course(s) in course management system database).
5. participates in training of peers, lower level employees, and student workers.
6. performs all duties normally required in the lower level of the series.
7. performs other related duties as assigned.

Level III: Library III**0000**

Under general supervision from a designated supervisor, employees at this level perform moderately complex functional duties that involve the application of basic techniques and practices of library science to determine library holdings, verify library records, make routine and complex adaptations to bibliographic and holdings records and other citations, perform complex circulation functions, provide assistance to users. In performing these duties, the employees may supervise other employees or serve as lead workers. Employees receive training in pertinent library processes, procedures, and tools.

A Library III typically:

1. oversees the data and/or physical processing of new materials.
2. performs routine ordering and receiving activities (including analyzing and interpreting vendor data using appropriate guidelines).
3. performs complex database searching and organizational activities for the local online catalog using local, regional, national, and international bibliographic databases (including copy cataloging and indexing of all print, non-print, digital, and electronic formats using various metadata standards; entering data into online information management systems; updating records to maintain currency and accuracy of the online catalog; using print and online resources to identify and resolve processing problems and discrepancies in previously cataloged or indexed materials).
4. provides query response and finding activities (including customer service support to users; conducting basic reference interviews; interpreting queries; directing or performing the full range of bibliographic searching of English language materials and some foreign language material for users using print and online bibliographic tools; assisting in the resolution of user complaints).
5. investigates, determines and collects fines and other charges (including maintaining related files and records and determining replacement value for lost or damaged materials).

6. performs circulation functions that include placing requests (both local and ILC SO), processing callslips, discharging and routing materials, performing item maintenance, performing patron database maintenance.
7. processes complex interlibrary and documents delivery requests (including requesting materials from other libraries and documents sources; overseeing courier services).
8. performs conservation/restoration duties (including condition appraisal, mending, retention, and disposal of library materials using appropriate techniques and methods).
9. serves as lead worker or as a first line supervisor (including training; instructing; scheduling; assigning and reviewing work).
10. oversees or manages a specific functional activity (including circulation; maintenance of collection; program management; record management).
11. produces statistical reports as needed.
12. participates in training of peers, lower level employees, and student workers.
13. performs all duties normally required in the lower levels of the series.
14. performs other related duties as assigned.

Level IV: Library IV**0000**

Under general supervision or direction from a designated supervisor, employees at this level perform highly complex duties that require an extensive working knowledge of the techniques and practices of library science, archives, or preservation/restoration. They are considered specialists and may work in specific areas: children's collections, music, foreign languages, etc. They may create library records, provide assistance to users, perform conservation and restoration duties, and/or assess, process, and reference archival records. In performing these duties, the employees may supervise lower level staff. Employees receive training in pertinent library processes, procedures, and tools.

A Library IV typically:

1. performs complex ordering and receiving activities.
2. creates complete records and classifies materials for which no Library of Congress, OCLC member input, or other standard copy is available (including complex formats such as non-print or electronic, serials, analytics, and materials in foreign languages).
3. catalogs all formats of serials and complex monographs (including interpreting vague or non-specific rules; working with materials in all languages; performing authority searching and verification; performing subject analysis).

4. classifies and creates descriptions of special types of materials following national standards and local classification schemes (including maps, pamphlets, government publications, and manuscripts).
5. classifies, creates, and provides access to digital information services (including remote access).
6. makes complex adaptations to bibliographic records in complex formats such as non-print or electronic, serials, analytics, and materials in foreign languages.
7. resolves complex bibliographic problems using print and online bibliographic tools or other information systems (including creating precataloging forms of entry and permanent machine-readable bibliographic, holding, and authority records to national standards)
8. establishes headings to contribute to the Library of Congress Name Authority database.
9. manages and establishes new serial entries based on information located in bibliographic tools and/or according to cataloging code.
10. maintains holdings records for serial publications or continuations and authorizes the necessary changes in records.
11. performs complex query response and finding activities, including help desk and interlibrary loan functions.
12. performs complex circulation activities, including performing item maintenance and patron database maintenance.
13. provides formal or informal instruction in use of bibliographic tools (including print and online catalogs, directories, indexes, digital repositories, and standard reference works).
14. conducts review, appraisal, and maintenance of records, documents, and papers for historical, legal, and business function and significance; determines the arrangement and description of archival records according to standard archival and records-management principles; prepares finding aids for holdings of archival documents.
15. designates treatment for specific items in disrepair or deteriorating condition in order to make them reusable or to stabilize the physical condition; preserves historic, bibliographic, or artifactual works and their integrity. Monitors the environmental conditions of storage and shelving units of the library and recommends changes as needed.
16. oversees the personnel management and operation of a specific functional activity (including directing and supervising the work of assigned personnel; responsibility for employment decisions, training, performance evaluations, work assignments, resolution of employee relations issues and maintenance/approval of records).
17. administers, implements, and interprets policies and procedures, and may participate in policy development or revision (including responding to inquiries; making operational decisions; and determining if referral is required).
18. participates in training of peers, lower level employees, and student workers.

19. performs all duties normally required in the lower levels of the series.
20. performs other related duties as assigned.

Level V: Library V**0000**

Under direction from a designated supervisor, employees at this level perform duties that require a practical knowledge of the theories and principles of library science; they create, interpret, adapt, and verify complicated library records and provide assistance to users. The employees use initiative and judgment in applying established library principles and procedures to problems and in determining when assistance of a professional librarian is needed. In performing these duties, the employees supervise other employees and/or serve as supervisors of major functional units. Employees receive training in pertinent library processes, procedures, and tools.

A Library V typically:

1. recommends specific materials for acquisition based on appropriate criteria.
2. manages bibliographic searching for materials with complicated entries (including uniform titles and corporate name entries).
3. hires, trains, supervises, evaluates, disciplines, and coordinates the activities of the unit's personnel.
4. manages/oversees a major library function(s).
5. interprets and applies library policies and procedures within the operation of a major functional unit.
6. exercises discretion in granting exceptions to general policies and procedures; provides assistance and guidance in the use of the collection to individuals and groups (including explaining the arrangement of the library's collections; answering complex questions regarding library's holdings; assisting in the use of online reference databases).
7. manages and establishes operational procedures for the functional unit in conjunction with the library's academic and/or administrative staff. Assists library administration, faculty members, and staff in evaluating the unit's operation and in developing policies to meet its future needs.
8. provides systems troubleshooting, oversees hardware and software implementation, programming and macro development.
9. develops recommendations for the unit's budget (including student wages, commodities, equipment, and contractual services) and manages the expenditures of the unit.
10. plans and prepares library exhibits that require scholarly research, selection of materials, and the composition of appropriate annotations.
11. compiles statistical information on the operation of the unit (including acquisitions, circulation figures, cataloging production, or building use) and provides reports on the operations as needed.
12. participates in training of peers, lower level employees, and student workers.
13. performs all duties normally required in the lower levels of the series.

14. performs other related duties as assigned.

MINIMUM ACCEPTABLE QUALIFICATIONS REQUIRED FOR ENTRY INTO:

Level I: Library I

0000

CREDENTIALS TO BE VERIFIED BY PLACEMENT OFFICER

1. High school graduation or equivalent
2. Any combination totaling **6 months** from the following categories:
 - (a) work experience in a library or equivalent setting or general clerical or customer service experience.
 - (b) college course work in any field as measured by the following conversion table or its proportional equivalent
 - 30 semester hours equals **six months**

Amounts of education or experience less than those listed above should be converted to decimal equivalents and added together when computing combinations of the different types of preparation.

PERSONAL ATTRIBUTES NEEDED TO UNDERTAKE JOB:

1. applied knowledge of spelling, grammar, and punctuation, as well as sentence and paragraph structure
2. ability to communicate effectively with and work well with a diverse staff and user population
3. ability to follow routine oral and written instructions
4. ability to perform effective customer service
5. ability to train and to supervise the activities of peer staff or student workers
6. ability to think logically
7. analytical and problem solving skills
8. general knowledge of institutional policies and procedures
9. general knowledge of library services and their availability
10. general knowledge of pertinent functional practices and procedures

11. ability to work accurately with detailed information and to perform routine alpha-numeric sorting and filing tasks, record-keeping, and tabulation tasks
12. ability to operate document production, reprographic, or other technical equipment used in a library
13. basic computer knowledge and skills including accurate keyboarding

Level II: Library II**0000****CREDENTIALS TO BE VERIFIED BY PLACEMENT OFFICER**

1. High school graduation or equivalent
2. Any combination totaling **1 year** from the following categories:
 - (a) work experience in a library or equivalent setting performing duties comparable to those described in Level I of this series.
 - (b) college course work in any field as measured by the following conversion table or its proportional equivalent
 - 30 semester hours equals **six months**
 - 60 semester hours or an Associate's degree equals **one year**

Amounts of education or experience less than those listed above should be converted to decimal equivalents and added together when computing combinations of the different types of preparation.

PERSONAL ATTRIBUTES NEEDED TO UNDERTAKE JOB:

1. knowledge, skills, and abilities required in the lower level of this series
2. skill in communicating effectively with and working well with a diverse staff and user population
3. skill in performing effective customer service
4. ability to train and to supervise the activities of other staff or student workers
5. ability to exercise appropriate judgment in decision making
6. applied knowledge of institutional policies and procedures
7. applied knowledge of pertinent functional practices and procedures
8. skill in maintaining various paper and electronic files and records

9. skill in working accurately with detailed information
10. skill in effectively operating technical equipment used in a library
11. skill in using pertinent computer applications and performing accurate computer keyboarding
12. ability to work with minimal supervision

Level III: Library III**0000****CREDENTIALS TO BE VERIFIED BY PLACEMENT OFFICER**

1. High school graduation or equivalent
2. Any combination totaling **2 years** from the following categories:
 - (a) work experience in a library or equivalent setting performing duties comparable to those described in Level II of this series.
 - (b) college course work in any field as measured by the following conversion table or its proportional equivalent
 - 30 semester hours equals **six months**
 - 60 semester hours or an Associate's degree equals **one year**
 - 90 semester hours equals **two years**

Amounts of education or experience less than those listed above should be converted to decimal equivalents and added together when computing combinations of the different types of preparation.

PERSONAL ATTRIBUTES NEEDED TO UNDERTAKE JOB:

1. knowledge, skills, and abilities required in the lower levels of this series
2. ability to correspond and communicate effectively with internal and external contacts
3. skill in training and supervising the activities of other staff or student workers
4. skill in exercising appropriate judgment in decision making
5. demonstrated time management skills
6. demonstrated organizational skills
7. ability to make independent decisions in handling library technical functions

8. ability to interpret policies, regulations, and standards while making adaptations to existing bibliographic and holdings records, creating holdings and item records, or adapting other citations
9. ability to interpret, adapt, or verify complicated bibliographic or holdings records, or to create complicated holdings records
10. working knowledge of online databases and library system technology
11. ability to identify sources and follow-up on detailed user requests
12. ability to work independently
13. ability to work collaboratively
14. ability to use productivity software

Level IV: Library IV**0000**

CREDENTIALS TO BE VERIFIED BY PLACEMENT OFFICER

1. High school graduation or equivalent
2. Any combination totaling **4 years** from the following categories:
 - (a) work experience in a library or equivalent setting performing duties comparable to those described in Level III of this series.
 - (b) college course work in any field as measured by the following conversion table or its proportional equivalent
 - 30 semester hours equals **six months**
 - 60 semester hours or an Associate degree equals **one year**
 - 90 semester hours equals **two years**
 - 120 semester hours or a Bachelor's degree equals **three years**
3. As required by the position to be filled, education, training, and/or work experience in the area of specialization inherent in the position may be required in meeting credential requirements #1 and #2 above.

Amounts of education or experience less than those listed above should be converted to decimal equivalents and added together when computing combinations of the different types of preparation.

PERSONAL ATTRIBUTES NEEDED TO UNDERTAKE JOB:

1. knowledge, skills, and abilities required in the lower levels of this series
2. working knowledge of the principles, techniques, and practices of library science
3. skill in corresponding and communicating effectively with internal and external contacts
4. detailed knowledge of online databases
5. skill in making independent decisions
6. skill in interpreting policies, regulations, and standards while creating bibliographic or holdings records or making adaptations to existing records and citations
7. skill in creating, interpreting, adapting, or verifying complicated bibliographic or holdings records
8. skill in identifying sources and following-up on detailed user requests
9. knowledge of conservation theory, principles, practices, and techniques
10. knowledge of the physical and chemical composition of library materials, their structure and working properties, and their reaction over time to the stresses placed on them
11. skill in the use of equipment, tools, and supplies used in the conservation/restoration of library materials

Level V: Library V**0000**

CREDENTIALS TO BE VERIFIED BY PLACEMENT OFFICER

1. High school graduation or equivalent
 2. Any combination totaling **6 years** from the following categories:
 - (a) work experience in a library or equivalent setting performing duties comparable to those described in Level IV of this series.
 - (b) college course work in any field as measured by the following conversion table or its proportional equivalent
 - 30 semester hours equals **six months**
 - 60 semester hours equals **one year**
 - 90 semester hours equals **two years**
 - 120 semester hours or a Bachelor's degree equals **three years**
- (Note: Only a maximum of 3 years credit for college course work is available.)

3. A total of two (2) years of direct supervisory or lead worker functional experience in a library or equivalent setting.
4. As required by the position to be filled, education, training, and/or work experience in the area of specialization inherent in the position may be required in meeting credential requirements #1, #2, and #3 above.

Amounts of education or experience less than those listed above should be converted to decimal equivalents and added together when computing combinations of the different types of preparation.

PERSONAL ATTRIBUTES NEEDED TO UNDERTAKE JOB:

1. knowledge, skills, and abilities required in the lower levels of this series
2. individual initiative and judgment in utilizing library principles and procedures
3. detailed knowledge of library system technology and its capabilities
4. proficiency in providing assistance and guidance in use of the library collections
5. ability to interpret and apply policies and procedures of a major functional unit
6. skills in organization, coordination, supervision, and work flow analysis
7. ability to develop and manage budgetary expenditures of a major functional unit
8. ability to compile, interpret, and use statistical information
