Clinical Actor (to be determined)

Function of Job

Under training and close supervision in a clinical/educational setting, consistently and accurately portrays specified emotional, behavioral, and or other characteristics while interacting with students during simulated encounters. These examinations are designed to enable student experiential learning and/or assessment of student progress.

DUTIES AND RESPONSIBILITIES:

1. Memorizes a range of specified personality, behavioral, or other characteristics for presentation during simulated learning situations.
2. Presents information to students in a standardized manner, as elicited by students during simulated interactive programs.
3. Provides flexible, realistic responses in compliance with performance training standards within the patient role.
4. Accurately remembers encounters for the purpose of recording observations of performance.
5. Maintains confidentiality of information related to performance and feedback evaluations.
6. Provides educationally constructive verbal feedback within a structured format, as appropriate to the position.
7. Performs miscellaneous job-related duties as assigned.

KNOWLEDGE, SKILLS, AND ABILITIES (KSAs)

1. Ability to accurately and convincingly interpret and present information in a role-play situation.
2. Excellent memory and recall skills.
3. Mental flexibility and the ability to successfully interact with students in a role-play situation.
4. Ability to understand and follow assessment protocols and procedures.
5. Ability to work flexible hours on a scheduled on-call basis.
6. Excellent oral and written communication skills and the ability to interact effectively with a wide variety of people.
