The State Universities Civil Service System continues to routinely revise and modify the classification plan. The overall objective is to provide an efficient and effective classification and examination system that meets the business requirements of each employer. The following modifications are therefore incorporated into the State Universities Civil Service System classification plan.

Classes currently used by: UIC, NIU, SIUE

Voiding/Deleting Registers

The registers for the Electrical and Electronic Instruments and Controls Series should be voided at the close of business on ~~October 31, 2010~~. All testing materials related to these titles should be destroyed.

Class Specification and Examination Components/Instruments

The new class specifications and examining instruments for the Electrical and Electronic Instruments and Controls Series (Credentials Assessments) will be effective (available per E-Test) ~~November 1, 2010~~. For details on class specification and other information i.e. occupational area, work area, promotional line, etc., visit the class specification link at our website at www.sucss.state.il.us.

Pay Rate/Ranges

Where necessary, employers should make adjustments to or establish new pay rates/ranges to accompany the above changes. In some instances, establishing a wide pay range will optimize the opportunity of each employer to properly reflect their individual compensation programs for these operations and positions.

Seniority

Seniority calculations should be reviewed and established based on the final classification assignment.
