SUBJECT: Final Status Notice for the Biomedical Engineer Series
CCE-12-80

DATE: August 17, 2011

The State Universities Civil Service System continues to routinely revise and modify the classification plan. The overall objective is to provide an efficient and effective classification and examination system that meets the business requirements of each employer. The following modifications are therefore incorporated into the State Universities Civil Service System classification plan.

Classes currently used by: UI-CH

<u>Current Classes</u>	<u>Action Proposed</u>	<u>Prom. Line</u>	<u>Occ. Area</u>	<u>Work Area</u>	<u>Effective Date</u>
1313 Biomedical Engineer I	REVISE	160	01/ Professional	032/ Engineering Services	10/15/11
4548 Biomedical Engineer II	REVISE	160	01/ Professional	032/ Engineering Services	10/15/11

Voiding/Deleting Registers

The registers for the Biomedical Engineer Series should be voided at the close of business on October 14, 2011. All testing materials related to these titles should be destroyed.

Class Specification and Examination Components/Instruments

The new class specifications and examining instruments for the Biomedical Engineer Series (CA or Knowledge Test) will be effective (available per E-Test) October 15, 2011. For details on class specification and other information i.e. occupational area, work area, promotional line, etc., visit the class specification link at our website at www.sucss.state.il.us.

Pay Rate/Ranges

Where necessary, employers should make adjustments to or establish new pay rates/ranges to accompany the above changes. In some instances, establishing a wide pay range will optimize the opportunity of each employer to properly reflect their individual compensation programs for these operations and positions.

Seniority

Seniority calculations should be reviewed and established based on the final classification assignment.
