The State Universities Civil Service System (System Office) is proposing a revision to the Veterinary Technician Series classification specification in the Semi-Professional occupational area. We believe that this proposal will be beneficial in addressing the recruitment, employment, and retention concerns surrounding the staff within this constantly evolving business operation. Our overall objective is to provide an efficient and effective classification system that meets the needs of each employer.

As outlined below, the proposed classification series will replace the current classification and is being presented for your review and comments:

Current Classes

Veterinary Technician - Ophthalmology I-II
Veterinary Technician - Pharmacy I-II
Veterinary Technician - Surgery I-II

Proposed Classes

Veterinary Technician (General)

The classification proposal will be reviewed during individually scheduled meetings or conference calls conducted by System Office staff. Examination format and effective dates will also be reviewed during these meetings.
