#### Voiding/Deleting Registers

The employment registers for each of the Nuclear Medicine Technologist Series should be voided at the close of business on October 31, 2014. All testing materials related to this title should be destroyed.

#### Class Specification and Examination Components/Instruments

The new class specifications and examining instruments for the Nuclear Medicine Series (Credentials Assessment) will be effective (available per E-Test) November 1, 2014. For details on class specification and other information i.e. occupational area, work area, promotional line, etc., visit the class specification link at our website at [www.sucss.illinois.gov](http://www.sucss.illinois.gov).

#### Pay Rate/Ranges

Where necessary, employers should make adjustments to or establish new pay rates/ranges to accompany the above changes. In some instances, establishing a wide pay range will optimize the opportunity of each employer to properly reflect their individual compensation programs for these operations and positions.

#### Seniority

Seniority calculations should be reviewed and established based on the final classification assignment.
