##### Series Narrative

Employees in this series provide customer service and assistance to individuals affiliated with a retirement system. They respond to inquiries and requests regarding retirement benefits, including electronic and paper records, and assist members in understanding requirements.

Classifications in this series require a high level of detail orientation, accuracy, and the ability to apply policies and legal requirements to a variety of complex situations.

##### Distinguishing Characteristics

At the Member Service Representative 1 level, employees are considered entry-level, with limited or no prior experience in the public-sector retirement system field. After completing extensive training, employees work on developmental assignments that are initially routine in nature, requiring limited judgment and decision-making.

As a Member Service Representative 2, employees are fully competent and productive contributors who apply acquired job skills, policies, and procedures to complete assignments and projects of moderate scope and complexity.

A Member Service Representative 3 is able to address matters that are difficult and often complex by applying an in-depth understanding of the field. They are able to analyze problems and issues of diverse scope and determine solutions.

A Member Services Representative 4 is a technical leader with a high degree of knowledge in the overall field and recognized expertise in specific areas. Problem-solving frequently requires analysis of unique issues or problems without precedent or structure.

This series is distinguished from other classifications by serving a statewide public-sector retirement system.

## DESCRIPTIONS OF LEVELS OF WORK

### Level 1: Member Service Representative 1

4819

Employees at this level are entry-level representatives with limited or no prior experience in a related field. They participate in extensive on-the-job training to learn the retirement system's policies, procedures, and systems. Through this training, they develop the skills needed to respond to basic inquiries, handle routine customer service requests, maintain accurate records, and support higher-level personnel. Employees work under close supervision, with a supervisor providing frequent and detailed review of work. Instruction, advice, and assistance are readily available.

#### Illustrative examples of work:

1. Participates in extensive training to develop knowledge and skills related to policies, procedures, regulations, and systems associated with the retirement system and other state and federal government agencies.
2. Assists with a high volume of member calls and email inquiries regarding a variety of retirement questions and issues related to their accounts or benefits.
3. Provides information to members in a small group or on an individual basis, both virtually and in person, to assist them with retirement-related decisions. Refers non-routine questions to higher-level Member Service Representatives or other sources of assistance.
4. Performs routine calculations for basic claims and assists with resolving simple benefit issues.
5. Analyzes reports, computer terminal display data, records, and other data related to a member's account to determine eligibility and other information related to the member's account.
6. Enters, updates, and maintains member records in information management systems and retrieves records from databases or other files as needed. Applies a strong focus on precision and thoroughness to spot errors, maintain accuracy, and ensure quality work.
7. Supports higher-level staff in the completion of more difficult operations.
8. Performs other related duties as assigned.
